

U T A H

CONSERVATION
CORPS

WHAT UTAH CONSERVATION CORPS OFFERS YOUR STUDENTS:

A PLACE TO APPLY THEIR PASSIONS AND SKILLS

UCC positions offer great summer job or post-graduation options for students who want to continue exploring their outdoor passions and what they learned in the classroom.

SEASONAL WORK

Crew leaders and members get paid to complete conservation service projects on public lands across Utah. This can provide excellent experience and a foot-in-the-door for positions with land management agencies.

EXPERIENCE OUT WEST

UCC field crews work hard in the iconic landscapes of Utah. They play hard as they travel and recreate during their off-time and around the season.

INTERNSHIPS & SERVICE LEARNING

UCC supports ways that a season working for us might also fulfill summer course credit, internship, or experiential components of academic programs.

SERVICE TO PUBLIC LANDS

UCC crews work to contribute to the integrity, access, and protection of some of America's most treasured public lands.

PLUS - GET PAID \$\$

Our corps members receive a living allowance as they work, as well as an AmeriCorps education award at the end of their term!

A CONSERVATION CORPS

CAREER PATH

1: **SERVE AS A CREW MEMBER**
Spend a season in beautiful places, serving and gaining skills

2A: **GO ON TO HIGHER EDUCATION**
The AmeriCorps award at the end of a season is a great boost into college

2B: **SERVE AS A CREW LEADER**
Those with previous corps experience are perfect for our crew leader positions

3A: **GET A CAREER IN CONSERVATION**
Whether becoming a staff member of a corps, or moving into the private sector, your new skills are perfect to go to work!

3B: **LAND MANAGEMENT (SEASONAL)**
Seasonal corps work helps network with land management agencies and frequently enables our corps members to work after they finish their season

3C: **GO TO GRADUATE SCHOOL**
Field experience often fuels a passion for research and further education on conservation efforts and methods

4A: **CIVIC ENGAGEMENT**
A season of service can turn into a lifetime of involvement in conservation and community service

4B: **LAND MANAGEMENT (PERMANENT)**
A full-time career with a land management agency can come after working and networking in the field of service with Utah Conservation Corps
