Fr: Charles R. Rogers, PhD, MPH, MS, CHES®

Re: Research-Driven Graduate Assistantship Opportunity (15 hrs/week)

Dr. Charles R. Rogers with the University of Utah Department of Family and Preventive Medicine is excited to announce the availability of a research-driven graduate assistant (GA) position in the Division of Public Health.

Starting May 2019, there will be one position open for a new or continuing Masters/PhD level student who attends the University of Utah. Starting fall 2019, one year of guaranteed funding is available with tuition benefit, and the option for position renewal for one to three additional years. Only student candidates planning to register for fall 2019 & spring 2020 classes will be considered. An April 2019 start date at 10 hrs/wk is welcomed, increasing to 15 hours May 2019 through spring 2020. An I-9 and background check will be required for the selected candidate.

This position is innovative in focusing on intervention development and implementation to reduce colorectal cancer disparities among African-American men; in focusing on education and experience in community-based participatory research; and in providing purpose-driven mentoring in all aspects of research. The GA will report directly to Dr. Rogers and assist in study-related activities including, but not limited to: all correspondences including with the University of Utah IRB, community engagement, participant recruitment and enrollment, data management and cleaning data, data collection and analysis (qualitative and quantitative), manuscript development, and results dissemination.

Submission Directions & Deadline: As one combined document, please send a 1-page cover letter including research interests and career goals, resume (2 pages max), and a list of 3 references by 3pm on Friday, February 15, 2019, to Academic Advisor Hailey McCormick (Hailey.Mccormick@utah.edu).

For questions, please email Dr. Rogers at charles.rogers@utah.edu.

Peace & Productivity,

Charles R. Rogers, PhD, MPH, MS, CHES®
