GIS TECHNICIAN II

KATY, TX

Percheron, LLC is the first nationwide, integrated land services provider offering specialized expertise in Field Services, Energy, Title, Survey, GIS, Safety and Environmental services. We are currently seeking potential candidates for a **GIS Technician II** who enjoys working in a fast-paced, detail-oriented environment for our Katy, Texas corporate office.

Please send qualified resume to careers@percheronllc.com. Please note "GIS Tech Katy" in Subject.

Job Purpose:

The **GIS Technician II** will use a variety of technical skills and communication skills to identify and solve client and corporate data questions.

Responsibilities/Duties/Functions/Tasks:

As **GIS Technician II**, you will create and maintain maps, GIS layers, electronic data, and geographic computer files by interpreting geographic or legal source data using automated GIS tools and perform related work as required. Other duties may be required but not limited to:

- Digitizing (Converting geographic data either from a hardcopy or scanned image into vector data.)
- Create professional maps from preliminary data.
- Perform desktop review of routes, structures, etc.
- Data entry/records updates into Percheron project database
- Create data deliverables (kmz's, shapes, geodatabase, reports, etc.)
- Number property tracts per client/internal protocols
- Convert/transform Lat/Long Data
- Map leases from internal and external sites
- Work efficiently under pressure with constant deadlines
- Work effectively on multiple projects simultaneously
- Python knowledge a big plus
- Experience with file geodatabase
- Class & HCA analysis, Sheetcutter software knowledge also a big plus
- Plot legal descriptions and boundaries
- Perform standard spatial analysis such as buffering, intersects, selections, etc.
- Complete moderate/difficult tasks with little assistance
- Understanding GEOAMPS data formatting/inputs.
- Work with minimum supervision and assist other technicians as needed.
- Interface directly with field as needed.
- Perform other duties as assigned or required

*Job duties related to GIS descriptions may vary by business unit

Qualifications:

- High School Diploma or equivalent
- 4-year degree in a GIS related field preferred
- GISP (Geographic Information Systems Professional) preferred
- Minimum of 3-years GIS experience required, preferably in an oil or gas related company
- Excellent computer skills, technology focused
- Attention to detail

Working Conditions:

- 100% office environment

Physical Requirements:

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job with or without reasonable accommodations. The following is a sample of some of the physical demands that would normally be required for this position.

- **Sitting:** Remaining in the seated position for extended periods of time.
- **Standing:** Remaining on one's feet in an upright position at a workstation without moving about
- **Walking:** Moving about on foot
- **Lifting:** Raising or lowering an object from one level to another usually between 10 -25 lbs.
- **Handling:** Seizing, holding, grasping, turning, or otherwise working with hand or hands. Fingers are involved only to the extent that they are an extension of the hand.
- **Hearing:** Perceiving the nature of sounds by ear
- **Talking:** Expressing or exchanging ideas by means of the spoken word to impart oral information to clients or to the public and to convey detailed spoken instructions to other workers accurately.
